

THEOLIMTM

Rapid Thermo IgniterTM

For Thermogenesis, Fat Utilization & Stimulant-Free Performance Nutrition

A patented botanical blend clinically demonstrated to support thermogenesis, fat utilization, and training metabolism through rapid metabolic activation and non-stimulant performance support.

450 mg/day
Clinically Studied Dose

 **19%**

**HIGHER METABOLIC
RATE DURING EXERCISE**
vs. placebo

 **RAPID**

**THERMOGENIC
RESPONSE**
from first dose

 **ENHANCED**

FAT OXIDATION
at rest & during
exercise

 **SAFE**

No meaningful effects
on blood pressure
or heart rate

IDEAL FOR

Stimulant-free
pre-workouts

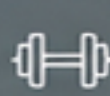

Thermogenic
sports nutrition

Full clinical dossier
available on request

STUDY 1 • 16-WEEK BODY COMPOSITION STUDY

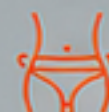

120 MEN & WOMEN | 16 WEEKS | 450 mg/day DAILY DOSE | Randomized | Double-Blind | Placebo-Controlled

*p<0.05 vs. placebo

Increased resting metabolic rate

Significant reduction in body fat

Significant improvement in body composition

Lean body mass maintained

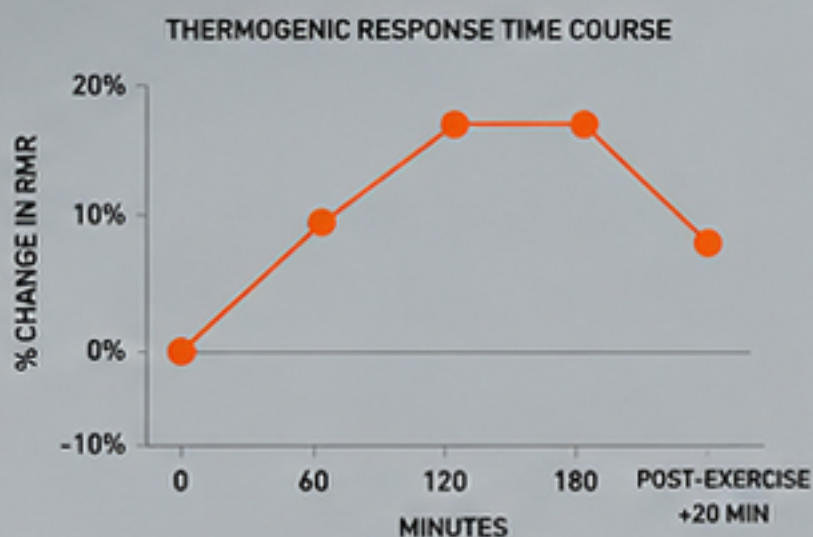

Excellent safety & tolerability profile

Improved mood scores (POMS)

STUDY 2 • ACUTE CROSSOVER METABOLIC STUDY

60 MEN & WOMEN | REST DAY + EXERCISE DAY | 450 mg SINGLE DOSE | Randomized | Double-Blind | Placebo-Controlled Crossover Study

RMR: Resting Metabolic Rate • POMS: Profile of Mood States

Rapid thermogenic response following a single dose

19% higher metabolic rate during exercise

Significantly greater thermogenic response through 180 minutes post-dose

Significantly higher fat oxidation at rest and post-exercise

Increased post-exercise calorie expenditure

Improved mood scores (POMS)
